

3 point turn.

Signal and pull over to the right side of the road. Signal to the left, turn the steering wheel sharply left, check your left mirror, check your left blind spot, and if clear in both directions move towards the curb on the far side of the road. When you have reached the left side of the road, stop. Shift the vehicle into reverse. Turn the wheel all the way to the right, look over your left shoulder then your right shoulder and back up slowly only as far as needed. Stop, shift to drive turn the wheel all the way to the left, check traffic looking left then right and when the way is clear, drive forward.
